

**Connect with other teens working to make their schools safe and welcoming.**

Haven is a social network for high school students like you who are actively engaged in making their schools places where all students feel comfortable and accepted – like they are a part of a caring community. You may be a peer mediator, a Safe School Ambassador, a member of a GSA, or trained in some other aspect of creating a safe and welcoming campus for you and your classmates. But you all share the ultimate goal of building a school atmosphere that supports and encourages all the students who go there.

We are excited to invite you to participate as a member of Haven, where you will find lots of information on different topics related to building safe and welcoming schools, such as conflict resolution, bullying prevention, and safety for LGBT students. We hope you will learn a lot from the site and especially from each other, and have fun doing so!

Use the information on this page to create your account.
